[1] The figures of Revenue and Expenditure are for the twelve months ended 31st December of each year until 1871, when the financial year was changed so as to terminate on the 30th June. The figures for 1871 are therefore for the six months ended 30th June, and the figures for subsequent years are for the twelve months ended 30th June.

[2] In addition to the quantity of land sold and amount realized within the year, the figures under the head "Crown Land Sales" represent during each of the years after 1868, the total extent of, and amount paid on, lands purchased under deferred payments of which the payments were completed within the year, although such payments had extended over a series of years. The extent selected, of which the purchase had not been completed, is not included in the area sold. This amounted, at the end of 1912, to 6,771,072 acres. The figures for 1894 include 12,221 acres disposed of to Messrs. Chaffey Bros. in previous years for £1 per acre, which area and amount were not previously taken into account. The figures for 1895 include 11,584 acres granted without purchase to Messrs. Chaffey Brothers; but lands granted without purchase, which amounted, up to the end of 1912, to 126,343 acres (including 50,000 granted to Messrs. Chaffey Bros.), are excluded.

[3] Since the year 1864, a considerable quantity of wool has each year been imported into Victoria across the Murray, from the Riverina district of New South Wales, for transport by railway to Melbourne and shipment thence. Prior to 1872 no precise record of the quantity so introduced was kept at the Customs. It has, however, been ascertained that at least 13,000,000 lbs. of wool, valued at £972,000, crossed the Murray into Victoria in the year 1870, and the following amounts in the years named:—19,552,598 lbs., valued at £1,096,772, in 1872; 31,542,913 lbs., valued at £1,745,550, in 1873; 35,332,089 lbs., valued at £1,975,879, in 1874; 40,535,081 lbs., valued at £2,260,799, in 1875; 44,430,185 lbs., valued at £2,039,009, in 1876; 37,647,218 lbs., valued at £1,661,868, in 1877; 43,357,702 lbs., valued at £2,081,368, in 1878; 46,561,653 lbs., valued at £2,338,670, in 1879; 54,865,967 lbs., valued at £2,720,612, in 1880; 53,090,294 lbs., valued at £2,594,240, in 1881; 44,213,260 lbs., valued at £2,224,512, in 1882; 29,072,345 lbs., valued at £1,355,219, in 1883; 42,796,749 lbs., valued at £1,875,962, in 1884; 39,306,234 lbs., valued at £1,633,517, in 1885; 40,138,278 lbs., valued at £1,866,029, in 1886; 52,423,118 lbs., valued at £2,198,223, in 1887; 48,045,819 lbs., valued at £2,036,637, in 1888; 54,738,160 lbs., valued at £2,608,743, in 1889; 58,433,040 lbs., valued at £2,415,337, in 1890; 65,389,504 lbs., valued at £2,406,292, in 1891; 57,031,431 lbs., valued at £2,107,838, in 1892; 61,002,358 lbs., valued at £1,817,000, in 1893; 61,222,763 lbs., valued at £1,668,718, in 1894; 55,302,943 lbs., valued at £1,527,093, in 1895; 52,669,995 lbs., valued at £1,426,827, in 1896; 44,297,220 lbs., valued at £1,203,100, in 1897; 37,654,370 lbs., valued at £989,943, in 1898; 38,366,902 lbs., valued at £1,237,198, in 1899; 43,825,091 lbs., valued at £1,287,136, in 1900; 43,369,256 lbs., valued at £1,262,779, in 1901; 26,065,095 lbs., valued at £773,325, in 1902; 25,167,419 lbs., valued at £970,094, in 1903; 32,664,057 lbs., valued at £1,310,130, in 1904; 41,770,266 lbs., valued at £1,786,049 in 1905; 58,473,353 lbs., valued at £2,514,353 in 1906; 46,919,878 lbs., valued at £2,056,034 in 1907; 39,283,572 lbs., valued at £1,693,063, in 1908; and 50,656,138 lbs., valued at £2,235,193, in 1909.

[4] The quantities of flour, bread, and biscuit imported and exported are reduced to their equivalent in bushels of wheat.

[5] The births and deaths given for 1853 are all of which there is any record; but it is known that the figures considerably under-state the truth, and it is supposed that each in reality amounted to not less than 5,000. The deficiency has chiefly arisen from the fact that the system of registering births and deaths was entirely changed during the year 1853, and the new system was not at first properly understood. In consequence of this, and also owing to the unsettled state of the gold-field population, it is known that many children born were neither baptized nor registered, and many persons who died were buried without registration or funeral service.

[6] Post cards were first issued in April, 1876. They are included with the letters in this column.

[7] Prior to 1871 the expenditure was for the year ended 31st December. The figures for 1871 relate to the first six months only. Since that date they have been for the year ended 30th June—except as regards the Railway expenditure in 1876, which is for the eighteen months ended 31st December, and in the years 1877 to 1884, which are for the twelve months ended 31st December; and except as regards Country Waterworks expenditure, which for all the years prior to 1885 is for the years ended 31st December. The figures do not in any case include amounts expended by municipal governments.

[8] These returns are those of the Government and private railways combined, the latter of which were purchased by the State in July, 1878. The returns of the former are, prior to 1871, for the year ended 31st December; in 1871 for the six months ended 30th June; in the years 1872-5 for the twelve months ended 30th June; in 1876 for the eighteen months ended 31st December; in the years 1877–84 for the twelve months ended 31st December, and subsequently for the twelve months ended 30th June. The returns of private railways are for the year ended 31st December up to the time they were purchased by the Government.

[9] Post Office Savings Banks were first opened in 1865. Hence the increase in the number of banks from that year. The returns for the Post Office Savings Banks are for the years ended 31st December; those for the Trustee Savings Banks are for the years ended 30th June. They were merged into one institution on the 1st October, 1897.

[10] Until 1879 the figures did not give particulars of all the Friendly Societies in the colony, but only of such as furnished returns. For that and subsequent years the returns are complete.

[11] The increase in the number of telegrams, in 1870 and 1885, was consequent on a reduction in the rates.

[12] Including purchase money of the late Melbourne and Hobson's Bay Railway Company's lines.

[13] For the first time telegrams on Railway service were not included.

[14] Exclusive of Treasury Bonds in aid of Revenue, and of £2,389,123 in 1893 available for the redemption of loans about to fall due.

* In 1863–4, 1864–5, and 1878–9 the yield of wheat was much affected by "rust," and in 1902–3 the almost total failure was due to drought.—† The tobacco crop in 1875–6, 1879–80, 1890–91, 1892–3, 1898–9, 1900–1, and 1901–2 failed in most parts of the State.—‡ Not available.—§ Not included in land under cultivation.

NOTE.—For the purposes of this table, subsidies or other sums received by any body from another have, as far as possible, been deducted from both revenue and expenditure. Thus, the revenue and expenditure of municipalities have been reduced by the amounts of the subsidies received from Government; those of the Fire Brigades Boards by the amount of the Government and municipal contributions; and those of the State Government by the amounts received from the Federal Government as Commonwealth surplus revenue, and from the Board of Works as interest on Government loans for which the Board has become liable.

* The financial year of both the Federal and State Governments and of the Melbourne and Metropolitan Board of Works ends on 30th June; that of Melbourne on 31st December; that of Geelong on 31st August; that of all other municipalities on 30th September; and that of the Melbourne and Geelong Harbor Trusts and the Fire Brigades Boards on 31st December.

NOTE.—The figures for the first five years may, for statistical purposes, be regarded as final; those for the last year—which have been revised to 31st Dec., 1912—will be liable to future correction. It should be stated, however, that there is no finality to the changes which may occur for back years in the Income Tax Registers, but such changes will not materially affect the above results. The Income Tax was imposed by Act 58 Vict. No. 1374, passed on the 29th January, 1895, and Regulations framed thereunder, dated the 14th March, 1895, and is levied on incomes earned after deducting all outgoings and expenses incurred in the production of income, an exemption of £200 being allowed until 1903, except in the case of absentees. For the five years 1903, 1904, 1905, 1906, and 1907 the exemption was reduced to £100, allowed to both resident and non-resident taxpayers, except companies, on incomes between £126 and £500 in 1903, between £151 and £500 in 1904, between £157 and £500 in 1905 and 1906, and between £201 and £500 in 1907. **For 1908, 1909, 1910, 1911, and 1912 the exemption was £150 on incomes between £201 and £500, except companies**; and in addition for the years 1908, 1909, and 1910 **a rebate of 20 per cent. on assessments was allowed to all taxpayers except companies.** The rates of tax applied to incomes of £201 and upwards for the year 1911-12, were as follows:—

Taxable Amount—	Rate of Tax on Incomes derived from— Personal Exertion.	Rate of Tax on Incomes derived from— The Produce of Property.
First £500	3d. in £1	6d. in £1
Next £500	4d. in £1	8d. in £1
Next £500	5d. in £1	10d. in £1
Above £1,500	6d. in £1	12d. in £1

The basis of taxation in the case of Life Assurance Companies is 8d. in the £1 on 30 per cent. of the premium income, for Industrial Assurance Companies it is 8d. in the £1 on 15 per cent. of the premium income, for Mining Companies it is 7d. in the £1 on (*a*) the gross amount of dividends declared and (*b*) the gross amount of debenture interest paid, and for other companies it is 7d. in the £1 on the taxable income.

* Taxpayers entitled to exemption shown in brackets.

† Penalties are excluded for each year as follows:—£1,881, £1,872, £2,369, £2,104, £2,577, and **£1,143 respectively.**

NOTES.—(1) Annual allowances in addition to pensions are sometimes granted, and hence the total number of pensioners is fewer than that of pensions. This happens chiefly in the Railway Department where extra allowances were voted as follow:—109 for £787 in 1902-3, 104 for £776 in 1903-4, 97 for £671 in 1904-5, 79 for £513 in 1905-6, 84 for £606 in 1906-7, 85 for £630 in 1907-8, 87 for £625 in 1908-9, 88 for £695 in 1909-1910, 93 for £828 in 1910-11, and 92 for £842 in 1911-12.

(2) Police and Pilot pensions are not included, being payable out of special funds. The endowment payable out of the General Revenue to the Police Superannuation Fund, under Act 54 Vict. No. 1127, is £2,000 per annum; but in addition to this the following amounts in aid have been paid out of Votes in the years named:—£45,000 in 1902-3, £40,000 in 1903-4, £42,000 in 1904-5, £40,000 in 1905-6, £36,000 in 1906-7, £21,268 in 1907-8, £23,700 in 1908-9, £26,625 in 1909-1910, £28,700 in 1910-11 and £27,000 in 1911-12. No Government contribution is made to the Port Phillip Pilot Sick and Superannuation Fund. For number and amount of Police and Pilot pensions, see page 38 *post*.

* Including pensions under Victorian Railways Commissioners Act.—† Subject to sanction of Parliament.—‡ Exclusive of payments to Police Superannuation Fund referred to in note 2 *supra*.

NOTE.—Pensions and gratuities to the police are payable under the Police Regulation Act (54 Vict. No. 1127) out of a fund called the Police Superannuation Fund. This fund is maintained by an endowment from the consolidated revenue, by a moiety of fines inflicted by the courts of petty sessions, by a deduction not exceeding 2½ per cent. from the pay of members of the force entitled to pensions, by transfers from the Licensing Fund under Act No. 2068, and, when the foregoing sources are insufficient, by further grants in aid from the consolidated revenue. In 1911–12, the ordinary receipts were as follow:—Government endowment, £2,000; fines, £4,337; deductions from pay (at 2½ per cent.), £4,860; transfer from Licensing Fund, £20,750; Government subsidy voted to supplement endowment, £27,000; total, £58,947. The balance at the credit of the fund on the 1st July, 1911, was £7,258; and on the 30th June, 1912, £12,132. During the past twenty-five years it has been necessary to vote £585,184 (exclusive of endowment and of £87,674 transferred from the Licensing Fund) in aid of the fund, or an average of £23,407 per annum.

* The financial years of Melbourne and Geelong end on the 31st December and on the 31st August respectively; that of all other municipalities on the 30th September.—† In addition, the following rates were levied in the following municipalities:—Sanitary rates in Bendigo of 5d. in the £1, in Castlemaine of 6d. in the £1, in Eaglehawk of 5d. in the £1, in Echuca of 4d in the £1, in Rutherglen of 3d. in the £1, and in Ballarat, Buninyong, Clunes, Creswick, Malvern, Maryborough and Wangaratta of 15s., 12s., 16s., 16s., 28s., 14s., and 18s. per pan respectively; Lighting rates in Geelong and Melbourne, of 2d. and 3d. in the £1 respectively; and Water rates in Ballarat, Sale and Wangaratta of 1s., 1s. 6d. and 1s. in the £1 respectively; and an improvement rate of 2s 6d. in the £1 and 3s. in the £1 in Northcote, and 6d. in the £1 in Portland. It must not, however, be inferred that similar rates were not levied in other municipalities, as many of them furnished no particulars respecting the rates levied in addition to the general rates.—‡ The area comprised in the Statistical District of Greater Melbourne embraces a radius of 10 miles from the General Post Office. For particulars as to the shires which are either wholly or partly comprised within that radius, see foot-notes † and ‡ on page 9 *post.*—§ Coburg was declared a town on the 9th September, 1912.

NOTE.—The figures in this table, which have been furnished each year by the Registrar-General, do not express the full amounts secured and released in each year, the reason being that the amounts are frequently not set forth in the registered documents, especially in regard to live stock, wool, and crops released, in which cases, although the mortgages or liens may have been paid off, the mortgagors seldom take the trouble to have the releases registered, as the securities relating to wool and crops lapse after the expiration of twelve months from the date of same.

* The following mortgages are not included:—Building Society mortgages which are registered as absolute transfers and regarded as such by the Titles Office; and equitable mortgages to banks and individuals by deposit of title-deeds chiefly for temporary advances, of which there is no public record. The Releases are also deficient, inasmuch as a mortgage is very often discharged in other ways, *e.g.*, the mortgagee sells under his power of sale on default, or the mortgagor transfers the property to the mortgagee in satisfaction, or the mortgagee forecloses.

† Of these numbers 2,955 in 1903, 1,236 in 1904, 1,095 in 1905, 624 in 1906, 174 in 1907, 208 in 1908, 19 in 1909, 60 in 1910, 45 in 1911, and 21 in 1912 were liens to the Board of Land and Works under the *Seed Advances Act* 1903.

CHARITY ORGANIZATION SOCIETY OF MELBOURNE.

Return showing the Number of Cases Investigated, the Results of the Investigations, and the Amounts Received and Expended by the Charity Organization Society of Melbourne during the Year ended 30th June, 1912.

	Misfortune.	Misconduct.		
			£	£
645*	594	51	1,920†	1,882†

* In addition to the new cases of individuals as stated above, there were 16 on investigations behalf of kindred societies or institutions that are not classified above; 22 old or recurrent cases also necessitated re-investigation; and 634 other old cases, which did not require actual re-investigation, but had to be dealt with in one way or another during the year.

† Including the Society's Administration, Trust, and Relief Funds.

Note.—This Society does not primarily aim at distributing alms from its own funds, but ascertains by investigation whether applicants for relief are "helpable," and, if so, how adequate assistance can be most wisely rendered, thereby assuring charitably disposed people that their contributions are being properly bestowed. It maintains a woodyard as a labour test, so that the means of earning food and shelter shall be open to men able and willing to work. It strives to induce co-operation between the charities, the recognition of the necessity of organization in the work of charitable institutions, and the compilation of records of value to the sociologist and philanthropist. It also strives to create a centre of intelligence bearing on charitable work generally.

Summary, 31st December, 1912.

Number of groups	23
Number of licensing districts	217
Number of districts not below the statutory number	120
Number of victuallers' licences in such districts	2,122
Statutory number	1,407
Excess number	715
Number of districts below the statutory number	95
Number of victuallers' licences in such districts	688
Total number of victuallers' licences in Victoria	2,810
Roadside licences	76
Number of groups operated in by the Board	23
Number of districts operated in by the Board	113
Number of hotels closed by the Board (1907–12)	614

Note.—By reason of fluctuations in population since 1906, the statutory number in some districts has increased, whilst in others it has decreased, showing slight variations in the excess. The figures given above of the excess on 31st December, 1912, in each district, are from the latest returns available, and are based on the number of male ratepayers on the electoral roll, when the returns were compiled for that year. The provisions of the Licensing Districts Act 1912 come into force from 1st January, 1913, and will in some instances affect the above figures.

*Including Chinese, also Aborigines from 1851 to 1901; in 1911 full-blooded Aborigines numbering 103 males and 93 females have been excluded from the figures in these three columns, but are included under the heading "Aborigines."

† Officially estimated; but according to other and apparently more reliable estimates made by private persons the Aborigines numbered not less than 15,000 when the colony was founded in 1836.

‡ Partly estimated.

NOTE.—Under the provisions of the *Electoral Act* 1910, Rolls of Ratepayers and Non-ratepayers for the Legislative Assembly were abolished. The printed annual or Special General Rolls contain the names of resident electors only. The *Electoral Act* 1910 makes provision for continuous enrolment for the Legislative Assembly, and names are added to the Registrars' Official Rolls during the currency of such Rolls. Persons possessing a property qualification must make claim for enrolment within three months after the coming into force of the printed Rolls. In the event of an election, a list of names added to the Roll since printing (including property holders, if any) up to and inclusive of a day being thirty days before a vacancy or dissolution is printed for use at such election.

1912–13	321	269,888	270,209	§	§	670,775§

* These numbers are approximate only, the Rolls not having been printed.

† The increase in the number of electors on the rolls in 1904–5 is due to the franchise of the Legislative Council having been broadened by the Reform Act of 1903.

‡ The great increase in the number of electors on the rolls in 1909–10 is accounted for by the operation of the *Adult Suffrage Act* 1908, No. 2185, which extended the franchise to women.

§ Under the provisions of the Electoral Act, 1910, rolls of ratepayers and non-ratepayers for the Legislative Assembly were abolished. Special general rolls were prepared for 1911 from results of an electoral canvass.

NOTE.—Pastoral and grazing area leases are granted for any term of years expiring not later than 29th December, 1920; whilst grazing licences are only of a temporary character (renewable annually), and are only granted for waste lands of the Crown till required under the principal sections of the Act. The Mallee leases, as the name indicates, are confined to the Mallee country, in the North-Western portion of the State, which was formerly dealt with under a special Act—the Mallee Pastoral Leases Act, the clauses of which were subsequently embodied in the Land Act 1890. The lessees of grazing areas have the privilege of selecting (*i.e.*, purchasing under the deferred payment system on certain conditions) an area not exceeding 200 acres first class, 320 acres second class, or 640 acres third class according to the classification of the land out of their lease for agricultural or grazing purposes: and lessees of Mallee allotments have a like privilege of selecting out of their lease 640 acres first class, 1,000 acres second class, or 1,280 acres third class, according to classification of the land.

The total area of leases issued during the year 1912 was 786,818 acres.

* There is no record of the produce for the three years prior to 1839.——† In 1863-4, 1864-5, and 1878-9 the yield of wheat was much affected by "rust."——‡ The tobacco crop in 1875-6, 1879-80, 1890-91, 1892-3, 1898-9, 1900-1, and 1901-2 failed in most parts of the State. The figures for 1912-13 are not available.——§ Exclusive of Sugar Beet. See "Minor Crops," page 82.

* As only a part of the potato crop, viz., 5,164 acres, had been dug when the statistics were collected, an estimate has been made of the remainder of the yield, based on averages deduced from actual information received in response to cards, from the principal growers in each county. The average of the 5,164 acres dug prior to the general collection of the statistics was 3·70 tons per acre; and that of 19,541 acres, returned by principal growers after such collection, was 4·06 tons per acre, giving a general average for the whole season of 4·02 tons per acre. Hence the estimate of the total produce is based on the average yield of 24,705 acres—or more than one-half of the whole area.

† Of the grapes gathered the estimated quantity used for making wine was 168,588 cwt.; for making raisins, sultanas, and currants, 512,514 cwt.; and for table consumption and export, 52,477 cwt.

‡ 615 tons of undressed flaxen straw grown in 1912-13 was reported to be awaiting treatment.

*For statistical purposes the municipalities within each district are arranged as nearly as possible in geographical order. Municipalities that overlap the boundaries of districts are considered in those districts wherein the principal portions are situated.

† In 1912–13, wheat was grown on 18,737 holdings, as compared with 18,810 in 1911–12.

‡ This includes land over which imported grass, clover, &c., have spread without cultivation; and scrub land on which grass has been sown after burning.

§ The number of hands ordinarily employed on any holding includes the occupier or manager, and those members of his family who actually work on it; but persons absent from their farms for the greater portion of the year following other occupations, as well as temporary hands—engaged harvesting, &c.—are not included, neither are domestic servants or cooks.

† As only a part of the potato crop, viz., 5,164 acres, had been dug when the statistics were collected, an estimate has been made of the remainder of the yield, based on averages deduced from actual information received in response to cards, from the principal growers. The average of the 5,164 acres, dug prior to the general collection of the statistics was 3·70 tons per acre; and that of 19,541 acres, returned by principal growers after such collection was 4·06 tons per acre, giving a general average for the whole season of 4·02 tons per acre. Hence the estimate of the total produce is based on the average yield of 24,705 acres—or more than one-half of the whole area.

The specific gravity of a bushel of Victorian wheat according to the standard fixed by the Chamber of Commerce was in 1899–00, 1900–1, and 1901–2, 62½ lbs ; in 1902–3, 61 lbs. ; in 1903–4, 60½ lbs. ; in 1904–5, 61½ lbs ; in 1905–6, 63 lbs. ; in 1906–7, 62¾ lbs. ; in 1907–8, 1908–9, 1909–10, and 1910–11, 62½ lbs. ; in 1911–12, 61½ lbs.; and in 1912–13, 63 lbs.

Bushels (Imperial) are as follows :—Wheat, rye, peas, and beans, 60 lbs.; oats, 40 lbs.; barley, 50 lbs.; and maize, 56 lbs.

* The weight of the bag itself, which is included, averages less than 2¼ lbs. new standard, and nearly 3 lbs. old standard.

† The low average of bushels per bag of barley in 1908–9 may be accounted for by the use, to some extent, of the new standard bag.

NOTE.—On the 15th May, 1908, a proclamation was issued by the Governor-General, restricting the size of cornsacks for importation to 41 inches by 23 inches, the weight to 2¼ lbs., and the substance to 8 porter 9 shot, with the result that about 95 per cent. of the bags used for wheat in the 1908–9 harvest were of the new standard size, the remaining 5 per cent. used being old standard bags held over by farmers from the previous season. Old standard bags are used less each year, and then mainly for oats.

NOTE.—The items in this Table do not represent the whole area under the respective crops grown, but only of such as were taken cognisance of by the collectors. The minor crops are often raised in gardens, in which case the various descriptions would not be distinguished. They may be also grown upon allotments of less than one acre in extent, and these the collectors are not called upon to visit. The Table must, therefore, be looked upon as indicating the nature of certain crops grown in Victoria rather than the full extent to which those crops are cultivated.

NOTE.—Stone-breaking and tar-pavement works being carried on in connexion with quarries, it is found impossible to separate them therefrom. The hands, machinery, &c., employed in these industries are therefore included with those of the quarries.

* Some of the stone quarries returned each year were upon Crown lands; in these cases no valuation of the land has been given.

MANUFACTORIES, 1912.

The Classification of Industries and the Definition of a Factory, agreed to at the Conference of Statisticians held at Hobart, Tasmania, in January, 1902, have been adopted in these tables. The following is the definition of a Factory :—" All establishments employing, on the average, four hands or upwards, also those with less than four hands, where machinery is worked by power other than manual, whether the business carried on is that of making or repairing for the trade (wholesale or retail), or for export."

Where two or more industries are carried on by one proprietor in one building, each industry is, where possible, treated as a separate establishment.

NOTE.—Where the number of factories is braced the information ~~has been~~ combined in order to conceal the contents o individual schedules. The figures in parentheses indicate engines worked in conjunction with those of a different description.

* The figures in this column apply to purchased land only. Three hundred and six establishments (including fifty-four cyanide works) were carried on upon Crown lands; in these cases no valuation of the land has been given.

† Nailmaking is also carried on in conjunction with wireworking and saw and moulding mills. Creameries are not counted as separate establishments, but are regarded merely as branches of butter factories. The number of hands employed in creameries was 98 males. ‡ Factory workers working at their own homes. ‖ Including one Pintsch gas works.

§ Of the total wages paid, males received £8,388,613, and females £1,713,631. This is equal to a yearly average for the former of £115 3s. 6d., and for the latter of £45 3s. 1d., or, assuming that 52 weeks were worked, an average per week of £2 4s. 3d. for males and of 17s. 4d. for females.
